Luveuphoria App Launches in Cherry Hill, New Jersey

Cherry Hill, NJ - Launched today by Advanced Marriage Trainers - Dr. Derrick L. Campbell and Mrs. Sheila Campbell - the Luveuphoria App was developed with the idea to overcome one of the most significant challenges in a marriage which is to maintain a healthy marriage.

One of the major reasons for an unhealthy marriage is lack of non-sexual intimacy which can lead to a boring lifestyle. People who are involved in a sex-less marriage are more likely to consider divorce and more likely to exist in an unhealthy marriage. Non-sexual intimacy is a significant contributor to long term marital bliss. Hence, regular non-sexual intimacy can make both the partners more receptive to sensual experiences.

One of the most important things to keep the marriage going is to increase the frequency of non-sexual intimacy in your marriage. Adding non-sexual intimacy is a good way of maintaining a healthy marriage. Regular non-sexual intimacy can make you both more receptive to sensual experiences and it will make it easier to transition into more frequent sexual encounters.

"My greatest hope is to reduce the divorce rate by helping couples have healthier marriages. After developing the Luveuphoria formula, I know that couples would have healthier marriages by using the Luveuphoria App", said Dr. Derrick L. Campbell.

Available Now
